CAREER OBJECTIVES

Motivated professional experienced in leading teams to success. Possesses exceptional communication and problem-solving skills, as well as a strong ability to build relationships and motivate team members. Proven track record of developing successful teams and achieving organizational objectives.

EXPERIENCE

.NET Associate Team Lead | InfoDevelopers Pvt. Ltd. | Kathmandu, Nepal
September 2022 – February 2023

- Mentored project leads on advanced concepts related to .NET technologies stack.
- Utilized MS SQL Server for developing database objects such as tables, views and stored procedures.
- Demonstrated expertise in building and deploying web applications using ASP.NET MVC, C#, JavaScript, HTML5 and CSS3.
- Provided technical leadership to a team of .NET developers, ensuring the timely delivery of projects.
- Worked closely with business analysts to understand requirements and develop solutions accordingly.
- Developed training materials and conducted on-boarding sessions for new hires.
- Successfully managed a team of 10 associates to meet and exceed customer service goals.
- Implemented Agile methodology throughout the project development lifecycle.
- Designed user interfaces with focus on usability and accessibility standards compliance.
- Optimized application performance by utilizing caching techniques and writing efficient queries.
- Worked closely with QA team to identify software issues and provided quick resolutions.
- Trained junior members of development team on coding best practices and industry standards.
- Collaborated with stakeholders to understand requirements.
- Deployed software updates across servers using automated scripting techniques.
- Performed root cause analysis of problems identified in live environment through log files.

.NET Senior Engineer | InfoDevelopers Pvt. Ltd. | Kathmandu, Nepal
August 2020 – August 2022

- Developed .NET applications using ASP.NET, C# and SQL Server stored procedures.
- Integrated third party APIs into existing applications to enhance their functionalities.
- Designed data models based on application requirements using Entity Framework Core ORM and ADO.NET.
- Developed Windows Service Application for the ease of the deployment and data migration using .NET Technologies.
- Created user interfaces with HTML5, JavaScript, JQuery, AJAX and CSS3, Knockoutjs.
- Implemented object-oriented programming principles to design efficient software solutions.
- Utilized Visual Studio for debugging code and resolving issues.
- Deployed .NET applications on IIS web server.
- Maintained source code version control system like GitLab for tracking changes in the codebase.
- Optimized existing database queries for improved performance and scalability.
- Collaborated with other developers in the team to ensure successful product delivery.
- Resolved customer reported issues related to .NET applications promptly and efficiently.

Full Stack.NET Developer | Sarvanam Software Pvt. Ltd. | Kathmandu, Nepal
December 2017 – December 2019

- Developed a web application using C#, ASP.NET MVC, Web API and Entity Framework.
- Optimized performance of applications by writing efficient LINQ queries in SQL Server database.
- Debugged code written in .NET languages such as C# using Visual Studio IDE.
- Maintained source control repositories with Visual SVN version control system.
- Deployed applications on IIS server to facilitate remote access.
- Wrote stored procedures, triggers and functions in T-SQL language for complex business logic implementation.
- Analyzed existing codebase thoroughly to identify areas of improvement or refactoring opportunities.
- Designed user interfaces in HTML, JavaScript, jQuery, Bootstrap and CSS.
- Used object-oriented programming principles to develop maintainable software components that could be reused across multiple projects.
- Provided technical support for users facing issues related to the .NET applications developed.

.NET Intern | Sarvanam Software Pvt. Ltd. | Kathmandu, Nepal

July 2017 – November 2017

- Developed .NET applications using C#, ASP.NET and MVC frameworks, webform.
- Configured IIS server settings to deploy web applications on multiple environments.
- Provided technical support for internal teams during software releases and upgrades.
- Designed SQL databases to support .NET applications.
- Integrated third-party APIs into existing architecture utilizing RESTful services.
- Wrote technical documents to document application design and functionality.
- Collaborated with senior developers in creating efficient solutions for web-based applications.
- Optimized existing codebase to improve performance and scalability of system components.

EDUCATION

Master Of Information Technology
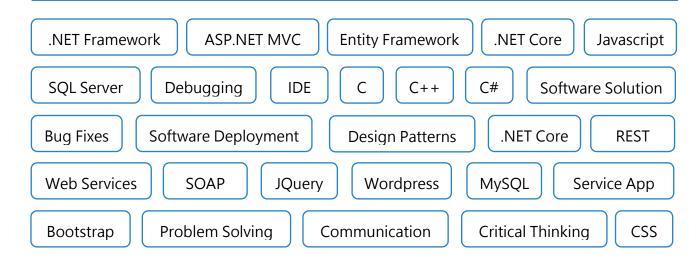

Kings Own Institute | Sydney, Australia

Expected Graduation in April 2025

Bachelors Of Science in Computer Science and Information Technology

Kathmandu BernHardt College | Kathmandu, Nepal

Graduated in October 2017

SKILL

.NET Framework	ASP.NET MVC	Entity Framework	.NET Core	Javascript
SQL Server	Debugging	IDE	C	C++	C#	Software Solution
Bug Fixes	Software Deployment	Design Patterns	.NET Core	REST
Web Services	SOAP	JQuery	Wordpress	MySQL	Service App
Bootstrap	Problem Solving	Communication	Critical Thinking	CSS

CERTIFICATIONS

SQL Server 2017 Database Administration
From Coursera
